

Hearing Health USA

Division of Mergers and Acquisitions
'Your Legacy Continues'

DO YOU HAVE AN EXIT STRATEGY?

Have you thought about selling your practice but had concerns about more than just the selling price?

- What would happen to my employees?*
- How would the new owner operate what has been my legacy?*
- What about my patients?*

As the industry's fastest growing retail entity, we've literally handled hundreds of acquisitions and have not only perfected the process, but also greatly simplified it. For the most part, we would keep your business name and related practices just as they stand now. In fact, in many cases we'd prefer for you to stay on board (if you should so desire), and continue to operate the business in a similar fashion you now do - successfully! With that said, we would fully handle all administrative, marketing, financial, IT and HR tasks, so you may have more time to devote to your patients.

Please contact me so we can explore options together:
